## Progress Outcome Statements

Outcomes for bundles completed in period: Sept – Feb 2026

### Level 2 Writing and Understanding Fractions

Understand fraction of shape and number.

### Level 3 Multiplication and Division

Understand the meaning of the x sign and how this relates to x-tables. Become confident in 2,3,4,5,8,10 x tables. Recognise how division is the inverse of multiplication. Practice different methods to multiply 2/3-digit numbers by 1-digit number and divide 2-digit numbers by 1-digit number.

### Level 3 Fractions and Decimals

Find a fraction of a number using a suitable strategy. Find/understand equivalent fractions. Compare unit and non-unit fractions (same denominator). Add and subtract fractions with the same denominator and understand why the same denominator is needed. Relate fractions in tenths to decimals. Understand what makes 1 whole in fractions and decimals.

### Level 4 Addition and Subtraction (including negative numbers)

Understand numbers continue below zero and solve simple problems using negative numbers and number lines. Use column addition methods to add and subtract numbers up to 4-digits. Use inverse, rounding and estimating to check answers or estimate.

#### Level 4 Multiplication and Division

Be confident in 6,7,9,11,12 x tables and how to calculate these. Find factors and multiples. Use an appropriate method to solve multiplication of 3 and 4-digit numbers by a single digit. Divide larger numbers by a single digit. Multiply and divide by 10, 100 etc.
